WITH AIR SERIES

AIR SERIES FILM BY LLUMAR®

While other films employ very dark tinting to achieve similar levels of heat rejection, AIR Series Film's colour is light enough to actually improve the driver's visibility. Its optical clarity and low reflectivity will not interfere with night driving.

Help protect your car's interior from fading and cracking due to ultraviolet rays. LLumar® AIR automotive window film creates a difference you can feel with a film you can barely see.

Even adding LLumar® AIR automotive windscreen film to privacy glass can help significantly improve solar performance by 50% and helps block more than 99% of Harmful UV rays. While LLumar® AIR is best suited for applications to windscreens and panoramic sunroofs, LLumar® AIR 65 is also available as a safety film for side windows. Paired with LLumar® Smash & Grab film, you will have complete UV protection that creates a safer, more comfortable car ride every time.

Protection from harmful UV rays

Increased heat rejection

Clear appearance complies with regulations

Durable, scratch-resistant coating

Advanced technology that won't interfere with
electronic signals from radios, GPS, cell phones
or toll sensors

All the benefits of window film without changing
the appearance of your current windscreen or
panoramic glass

SUNBLOCK FOR YOUR DASH AND THE PEOPLE INSIDE

The sun's visible and infrared (IR) rays can cause the temperature inside your car to become unbearably hot, but more importantly, harmful ultraviolet (UV) rays can also cause irreversible damage to vehicle interiors and human skin. LLumar® AIR automotive window film protects against harmful UV rays that penetrate ordinary windscreen glass including factory installed privacy glass.

QUALITY YOU CAN COUNT ON

Proudly made in the U.S.A., high-performance LLumar® brand window films help protect and improve homes, businesses, and vehicles worldwide.

Manufactured by a subsidiary of Eastman Chemical Company, LLumar® products are recognised for their outstanding appearance and durability.

Professionally installed, with a reputation for quality and innovation, LLumar has become the NUMBER 1 window film brand in South Africa.
